Engaging Table Topics Begin with the Right Questions

'Let's talk About Water'

Dear Members

How are you ?

Here are an Erin's questions from Monday, if you wish practice and upskill ?

The best questions are like those in a job interview—they are designed to help you shine! Good questions give you the freedom to take the topic in any direction you want, allowing you to create an answer even if you know nothing about the subject.

Water is a topic everyone can relate to, no matter their background in water !

Practice Questions: (Target time 2 mins)

1. **Daily Life:** What role does water play in your everyday routine, and how would your life change without easy access to it?
2. **Memory Lane:** Can you recall a time when water was a significant part of an experience—maybe during a vacation, a rainy day, or even a simple glass of water?
3. **Personification:** If you could be any body of water (ocean, river, lake, etc.), which would you choose and why?
4. **Symbolism:** What does water symbolize for you personally, and has that meaning evolved over time?
5. **Community Impact:** How do you think your community could better appreciate or manage its water resources?
6. **Connection:** What is your favourite water-related activity, and how does it connect you to nature or others?
7. **Extreme Conditions:** If you had to live in a place with extreme weather (either too dry or too wet), which would you choose, and how would you cope?
8. **Conservation:** What's one small change you could make in your life to conserve water, and why might it be important?
9. **Global Perspective:** How do you think water connects us globally, beyond just its basic necessity for survival?
10. **Soundscapes:** How does the sound of water, like rain or waves, affect your mood or mindset?
11. **Hydration Habits:** What's your favourite way to stay hydrated throughout the day, and why does it work for you?
12. **Dream Destination:** If you could explore any famous water-related destination (like a waterfall, lake, or ocean), where would you go and why?
13. **Fun Facts:** What's the most surprising or interesting fact about water that you've ever heard?

14. Teaching Moments: How would you describe the importance of water to a child who is just learning about it?

Happy Practicing and upskilling !

Wishing you a great weekend
